Trend in wild offtake/harvest in relation to total wild population numbers over last five years: Trend in offtake/harvest produced through domestication/cultivation over last five years: CITES:

**Red Listing** 

**Red List Criteria:** 

Rationale for the Red List Assessment: Listed as Least Concern in view of its wide distribution, presumed large population, and because it is

unlikely to be declining fast enough to qualify for listing in a more threatened category.

Current Population Trend: Stable Date of Assessment: 12/17/2004

Assessor(s): Wolfgang Böhme, Petros Lymberakis, Varol Tok, Ishmail Ugurtas, Murat Sevinç, Pierre-André Crochet

Notes on Red listing:
